# Stainless Steel Buttweld Fittings & Flanges

## [8] STAINLESS STEEL BUTTWELD FITTINGS & FLANGES

### Specifications

Stainless Steel Butt Weld Fittings are made from the finest quality stainless steel designed to be dimensionally precise. The advantages of these fittings are its high tensile strength, robust nature and rust free properties.

AAP supplies Stainless Steel butt-weld fittings made from welded stainless steel pipe which is manufactured from 2B or HRAP stainless steel strip, which is formed to shape and longitudinally welded to complete the pipe.

Stainless steel butt-weld fittings are most commonly used in refinery complexes, chemical production and petrochemical engineering.

## Notes

This image shows a full page of blank, lined paper. It features approximately 28 horizontal grey lines spaced evenly apart, typical of notebook paper. The lines extend across the entire width of the page, leaving small margins at the top and bottom. There are no vertical lines, text, or other markings present.
